I. EDITORIAL QUALITY

Points: **8.32 / 10.70**

Information printed on the magazine cover or published on the magazine

home page: 100 %
ISSN, year, number, issue, volume or month.

Article meta data

keywords in original language 0 %
keywords in English 100 %
authors' affiliation 100 %
the date on which the article was sent/accepted 100 %
Author's declaration on the sources of funding of research presented
in the scientific article or of the preparation of the scientific article 0 %

Instructions for authors

instruction regarding the structure of the article 100 %
instruction regarding the format of references 100 %

Clear website layout 70 %

Clear article layout 100 %

Quality of pictures and illustrations 100 %

Quality of graphs and tables 100 %

II. STANDARDS		Points: 4.80 / 6.42
Review procedure publication		100 %
Review model		0 %
External reviewers		95 %
Statement confirming the original content of the scientific publication		100 %
Statement regarding the contributions of individual co-authors (ghostwriting block)		100 %
Statement confirming no conflict of interest		100 %
Statement regarding the financing sources of the article or research covered by the article		100 %

III. STABILITY		
POSITIVE CRITERIA		Points: 1.71 / 4.28
Magazine publication frequency		100 %
Years of uninterrupted operation of the magazine		0 %
NEGATIVE CRITERIA		Points: 0.00 / -16.5
No scientific publications in 2013-2014		0 %
Publication delay higher than 6 months in 2013-2014		0 %
Publication of combined issue in 2013-2014		0 %

IV. INDEXING IN DATABASES		Points: 6.02 / 16.05
Indexing in databases		38 %

V. DIGITALIZATION

Points: **22.84 / 37.45**

Active, frequently updated website	100 %
Electronic publishing-editorial system	0 %
Gathering data regarding downloads and views of articles	0 %
Used bibliographic styles	0 %
Tools used to maintain bibliographic data	0 %
Ability to introduce data related to connected bibliography	0 %
Full versions of scientific publications available over the Internet	100 %
DOI numbers	100 %
Application of the "ahead of print rule" for all scientific publications	100 %
Available formats for scientific publications available over the Internet	50 %

VI. INTERNATIONALIZATION

Points: **15.89 / 32.10**

Number of language versions of the magazine website	100 %
Scientific publications translated to English, German, French, Spanish, Russian and Italian (full text)	0 %
Titles and abstracts of the scientific publications available in English	100 %
Foreign affiliations of the authors	95 %
Foreign affiliations of the reviewers	95 %
Foreign affiliations of the Scientific Council of the magazine	95 %

VII. EXPERTS PEER-REVIEW OPINION

Points: **8.00 / 20.00**

The magazine is publishing up-to-date content of high scientific value

The magazine is an official platform for conference publications

The magazine frequently publishes articles by theoretic and practical experts in the field it covers

The magazine has high ethical standards

The magazine propagates knowledge worldwide

Educational value of the magazine

Magazine potential

Influential part of the national heritage, important for development of culture and science

VIII. MAGAZINE INFLUENCE

Points: **0.00**

Frequency of quotations

0.00

Change in number of quotations

0.00

MAGAZINE GRADE - SUMMARY

Magazine grade for: "**British Journal of Medicine and Medical Research**" (e-ISSN: 2231-0614)

ICV 2014: 67.58

ICI Value is composed of two elements:

1. The quality of the magazine is decided by the grade criteria: 67.58

The grade is composed of criteria from the following groups:

- Editorial quality
- Standards
- Stability
- Indexing in databases
- Digitalization
- Internationalization
- Experts Peer-Review Opinion

Top ICI Journals Master List grade equals to: ICV=100.

If the magazine received between 100 and 127 points, it will receive ICV=100.

If the magazine received less than 100 points, the grade will be equal to the number of points received.

**2. Magazine influence – rated based on the number of quotations and change in the number of quotations:
0.00**

In order to compare the current grade to previous value, one should use a standardized value, which, for this specific magazine amounts to: 6.73.

Data provided by the scientific magazines in evaluation surveys are partially verified and updated.

ICV grade for 2014 is calculated on the basis of:

- the survey containing detailed information regarding the magazine, sent over in digital form by the editorial office of the magazine (including partially verified and updated values)
- publicly available data relating to the number of quotations

Appeals can be sent to odwolania@indexcopernicus.com within 14 days from the day the grade was received.
